

Weill Cornell Medicine

Department of Population Health Sciences

Biostatistics Summer Internship

The Division of Biostatistics is currently accepting applications for the Biostatistics Summer Internship Program.

Internship components:

1. **Project:** Complete a project analyzing data to answer a real-world health research question.
2. **Lectures:** Attend lectures on hot topics in healthcare data analysis and prof development.
3. **Mentorship:** Receive mentorship support from a biostatistician mentee.

Preferred qualifications:

- Undergraduate student or recent grad with an interest in healthcare and data analysis.
- R coding experience preferred.

To apply, email a cover letter and resume to Caroline Andy at cma2008@med.cornell.edu.

Are you interested in data analysis? Are you passionate about improving healthcare access and outcomes?

Gain real-world experience analyzing public health and healthcare data

Internship details:

- Paid internship (\$5000 stipend)
- Duration: June 9 - July 25, 2025
- In-person in NYC
- Underrepresented students are encouraged to apply
- Application deadline: April 1, 2025
